

The project RCAAP made available several resources for support. These contents are presented in several formats: online tutorials, videos and documents and are designed for the entire audience of the project: leaders, managers, technicians, teachers and researchers. In section "Online Tutorials" some short modules will allow you to familiarize yourself with access open, RCAAP project, the self-archiving, copyright and the Common Repository. In section "Repositories Manager Training", you can find several modules on the management of repositories based on the DSpace platform. These distance learning modules summarize, step by step, the most common tasks and are supplemented with videos of exemplary tasks. In the "Support Documents" you can find project information, such as studies, reports, documentation of meetings, etc ...
